

Syscomm Database (How to import the database)

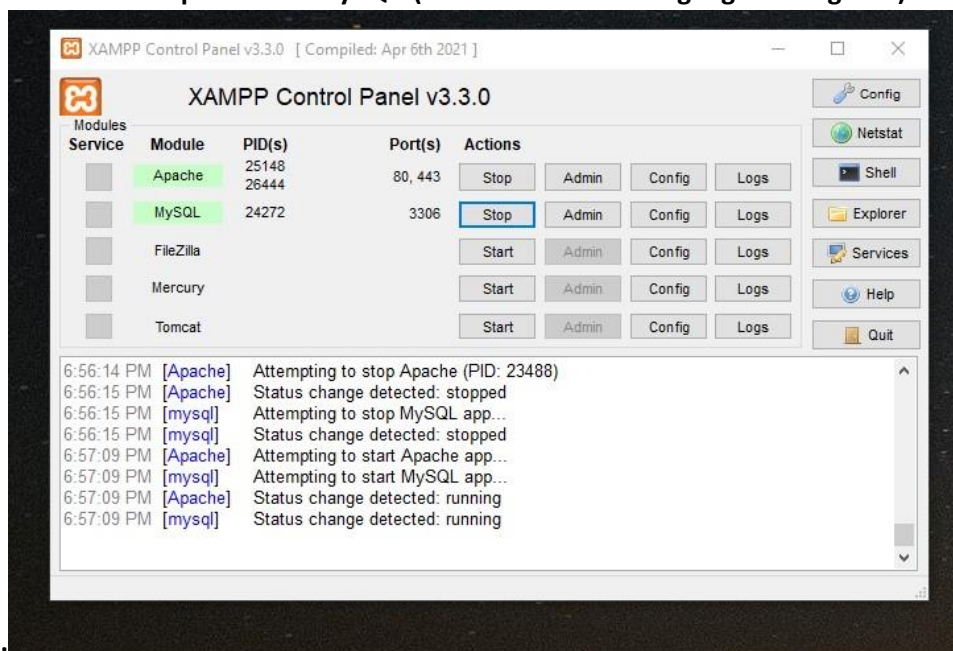

- First download xampp

: <https://www.apachefriends.org/xampp-files/8.0.13/xampp-windows-x64-8.0.13-0-VS16installer.exe>

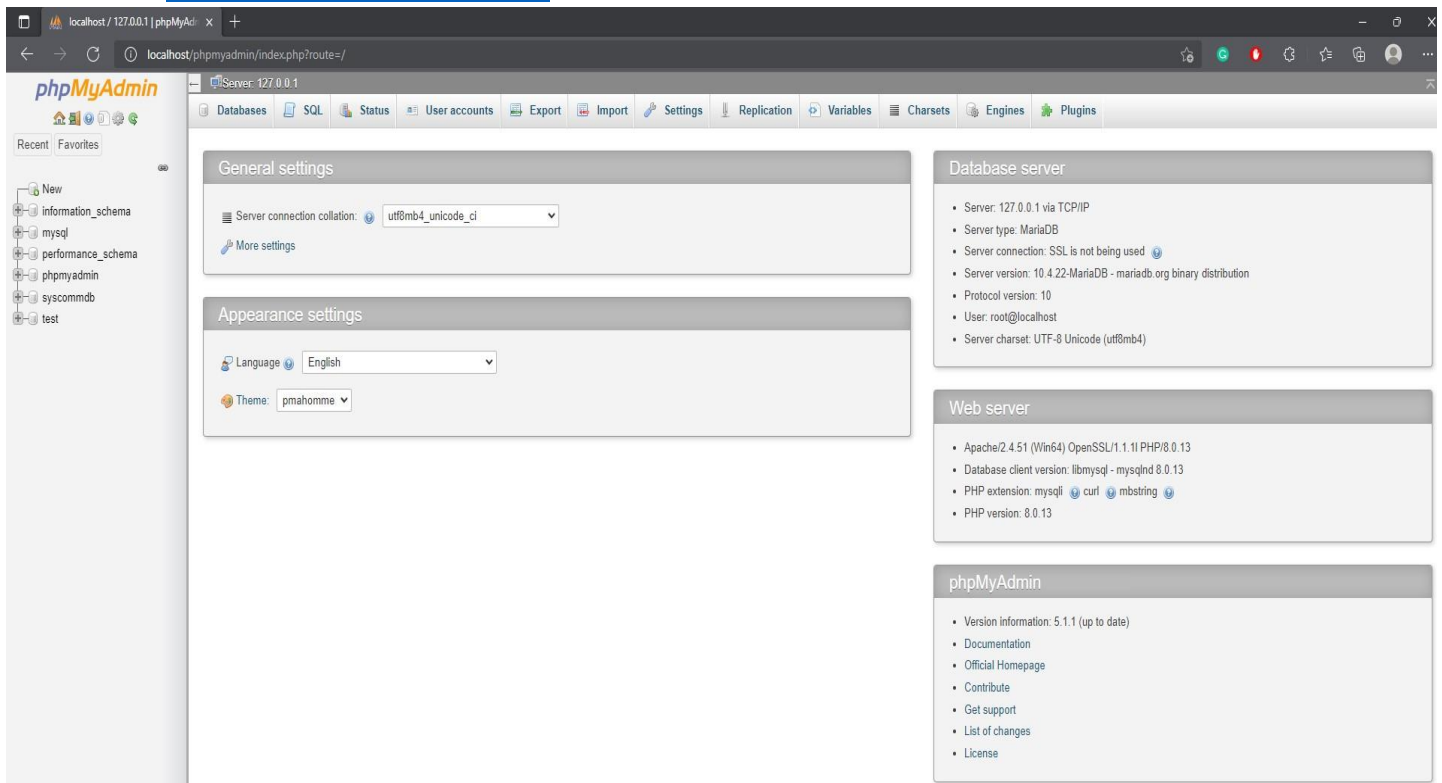

- Run your xampp

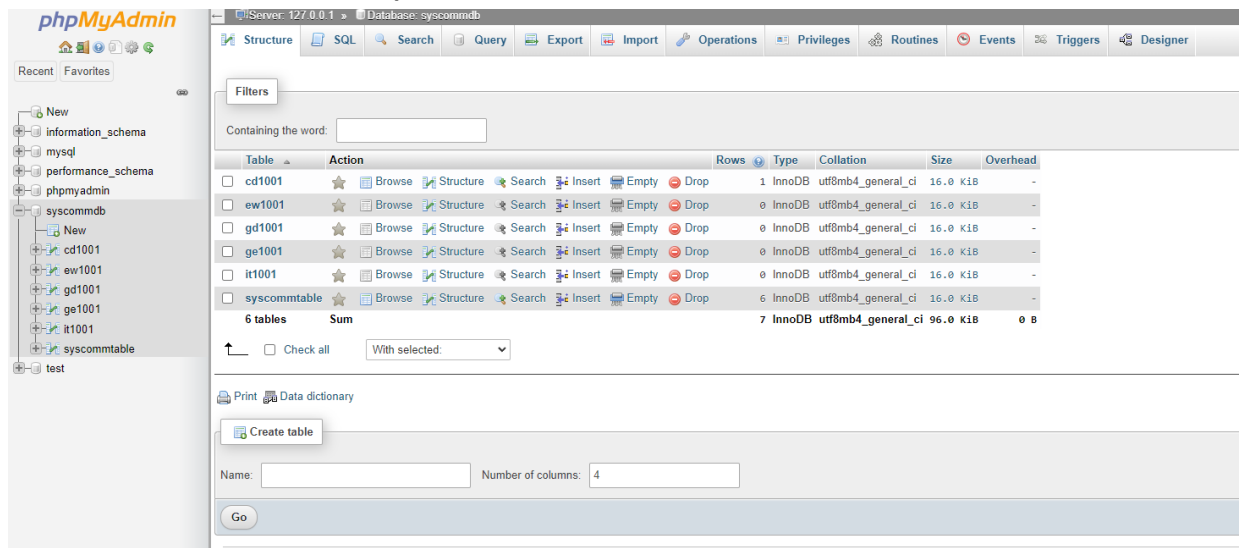

- Click start on Apache and MySQL. (The text should be highlighted in green)

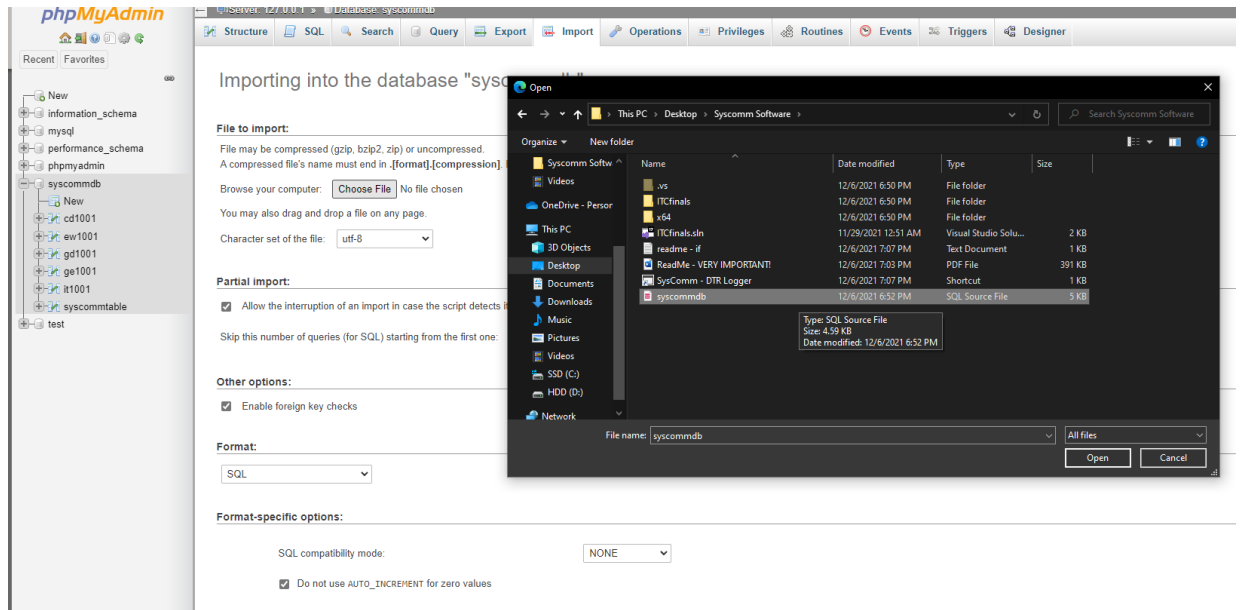

- Go to your browser and type this link
: <http://localhost/phpmyadmin/>

- Create a new database name “syscomddb”
- And click that database then import

-
- Then click go and run the software
-
